LAWNMOWER 40V - POWDPG7568

The Dual Power POWDPG7568 is a cordless, durable 40V lawnmower with a cutting width of 51cm. It features no less than two batteries, so you can enjoy your cordless lawnmower even longer. When the first battery is empty, you switch the selector and continue with the second battery. Of course you can also choose to use just one battery.

You easily mow gardens up to 1200m² and remain highly manoeuvrable thanks to the large ball bearing wheels. Moreover you can choose the optimal height for your lawn (6 positions between 30 and 80mm). Besides gathering the grass in the very large 70L collection bag, you can also use a side and rear discharge or a mulching function.

Its brushless motor makes this Dual Power lawnmower even more powerful and durable. In this way, you experience less vibration and lose less time maintaining your machine.

Separate battery and charger

The battery and charger are not included. They are sold separately and are compatible with the whole Dual Power range.

Which Dual Power batter is compatible?

This 40V brush cutter is only compatible with the 2x20V Dual Power batteries.
