Manual del Usuario

Por favor, consulte la normativa referente a la construcción, ubicación y otros requerimientos antes de comenzar la instalación de su caseta metálica. Repase este manual de instrucciones antes de comenzar la instalación ya que contiene información y consejos para un montaje más sencillo y agradable.

Instrucciones de instalación

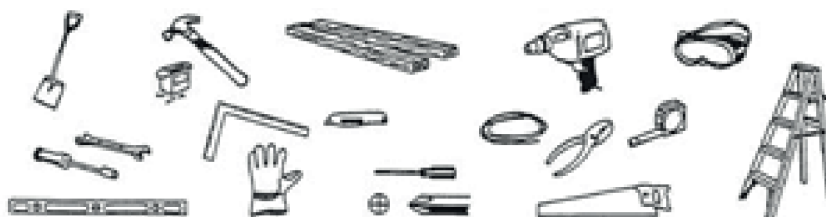

Antes de iniciar la instalación, asegúrese de leer cuidadosamente las instrucciones y siga los pasos de instalación uno por uno para terminar con éxito.

Selección de la ubicación de instalación

Recomendamos la instalación sobre una zona nivelada con buen drenaje. La caseta metálica debe anclarse para evitar percances derivados de la acción del viento. El kit no incluye la base por lo que deberá adquirirla por separado o construir la cimentación o el sistema de anclaje por sus propios medios. Para la cimentación es necesario construir una base cuadrada y nivelada. No se recomienda usar la caseta en sitios de costa.

Lista de piezas y accesorios

Por favor verifique y revise la integridad de los componentes necesarios de acuerdo con la lista de partes (despegue la película protectora de plástico antes de ensamblar las piezas, y si es necesario, note y conserve el número de etiqueta): Herramientas necesarias (ver la figura):

Por favor preste atención a la seguridad al utilizar las herramientas.

2. Para garantizar que la puerta pueda deslizarse suavemente, mantenga limpio el carril de la puerta y limpie a tiempo los residuos y basuras.
