

# PERGOLA-ARBOUR

## 'FÉNIX' 12 m<sup>2</sup>

KIS3040

8445401009238

**GARDIUN** is the brand with the most complete range of garden organisation, refurbishment and enjoyment, the only one that offers products made both of resin and of wood and steel. What's more, for each GARDIUN material there is a vast number of models, designs and functionalities in different measurements and colours.

The "Fénix" model is an elegant pergola of the arbour type, which you can put in your garden and enjoy all the year round. It has a **gable roof, made of 0.40 mm galvanised steel and anthracite in colour**. As well as a **reinforced zinc-plated structure** which perfectly combines with its **FSC certified wooden structure**. All these materials and their **paintwork are highly corrosion-proof**, which is why they can be used externally in all seasons with **minimum maintenance**.

In summer enjoy the pleasant rays of the sun at breakfast, take an afternoon nap whilst taking in the springtime scents around you, prepare a summer dinner in the garden whilst listening to the night-time chirping of the crickets or read a book in your arbour whilst watching the autumn leaves fall.

Now all you have to do is to find a smooth, well-levelled surface where to assemble it. Its **assembly is very simple and includes everything you'll need: fastening supports to the ground and all the screws you'll need**.

**Gardiun Pergolas. The most elegant solution for having a life in the garden all the year round.**
