# IMPACT DRILL 500W

This compact Powerplus impact drill makes smaller drill projects a piece of cake. With the selector you smoothly change between drilling and impact drilling. As a result, the tool drills even more powerful in hard materials. The max. drill diameter in steel is 6mm, 10mm in concrete and 13mm in wood.

A speed control dial allows you to set the optimal rotation speed (from 0 to 3.000min<sup>-1</sup>) for drilling in different materials. When using the impact function, you get an impact rate of no less than 41.000 impacts per minute. The depth stop never lets you drill a hole too deep and the auxiliary handle allows a safe and comfortable working position. The key chuck handles drills up to 13mm and the lock-on button keeps you focused on the job.

TECHNICAL SPECIFICATIONS POWC10100		Features	Box content	Symbols
Rated voltage - frequency	230-240V~ 50Hz	<ul style="list-style-type: none"><li>• 2 functions</li><li>• lock-on button</li><li>• key chuck</li><li>• left/right switch</li><li>• depth stop</li><li>• speed control</li></ul>	1x impact drill
