CIRCULAR SAW 20V - POWDP25200

This 20V circular saw from Dual Power is suitable for perfect straight and mitre cuts. Its 45° tiltable saw blade makes bevel cuts in wooden planks and for baseboards possible as well.

The Ø165mm saw blade has 24 teeth and reaches a rotation speed of up to 4000min⁻¹. This results in a cutting capacity of 55mm for regular cuts and 38mm for 45° bevel cuts. The parallel guide guarantees perfect straight cuts.

The soft start motor increases the rotation speed gradually, ensuring together with the auxiliary handle a stable and controlled result. A clear view on the cutting line is achieved thanks to the integrated work light and vacuum cleaner connector.
