MITRE SAW 20V - POWDP2550

With this cordless 20V mitre saw from Dual Power you can cut baseboards to size in no time. The 40 hard alloy teeth of the Ø210mm saw blade and the aluminium gearbox housing make the device solid and durable. With its rotation speed of 3300min⁻¹ you are able to work most efficiently.

Making accurate straight cuts or mitre cuts: with the POWDP2550 nothing is impossible. For mitre cuts you have a sawing capacity of 83x55mm at your disposal and for straight cuts 120x55mm. You can firmly fix the workpiece in place with the clamp, whereas the side guides guide it stably through the saw blade.

The spindle lock disables the spindle rotation while you replace the saw blade and the overload protection prevents the machine from overheating. You can work comfortably with this Dual Power device, thanks to the soft grip and sawdust extraction.
