FILE SANDER 20V - POWDP50700

This battery powered POWDP50700 file and belt sander from our Dual Power line is perfect for renovating, restoring, sanding and deburring wood, metal or any synthetic material. The narrow sanding belts combined with a movable sanding arm allow you to reach even the hardest to reach spots.

Choose the correct speed setting for each individual project. The rotational speed is between 360 and 800/min and can be adjusted using the button at the top. Thanks to the soft grip you can work comfortably while the lock-on button makes sure you don't have to hold the power button while you work.

The tension of the sanding belt can be manually adjusted and the sanding belts can be switched easily. The machine comes with an 80-grit sanding belt of 457x13mm.

Batteries and charger are sold separately and are compatible with all devices in our Dual Power line.
