STAPLER/NAILER 20V - POWDP7010

This cordless 20V nail and staple gun from Dual Power is ideal for the most diverse fastening jobs. In particular, it is suitable for fastening iron mesh, felt, cardboard or fabric to wood. Thanks to the safety nose, the gun can never be fired accidentally.

The cordless tool can shoot both nails and staples at a speed of up to 30 pieces per minute. The magazine is easy to refill and has a capacity of 50 pieces. The remaining capacity of the magazine is easy to check thanks to the indicator.

The nail- and staple-driving depth can be adjusted thanks to the depth regulator. This is why the gun can be easily adapted to any task. The built-in LED work light provides a good view of the workpiece.

The Dual Power nail and staple gun is only suitable for staples with a height of 15

to 25 mm and nails of 15 to 32 mm. The tool comes in a practical plastic case and includes 100 19-mm staples and 100 19-mm nails.

Compatible staples from Kreator: KRT304016, KRT304019, KRT304022, KRT304025

Compatible nails from Kreator: KRT305015, KRT305020, KRT305025, KRT305030

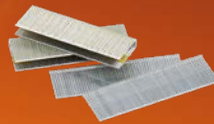

Separate battery and charger

The battery and charger are not included. They are sold separately and are suitable for the entire Dual Power range.

Which Dual Power battery to use?

This 20V nail and staple gun is compatible with both a 20V and 2x20V Dual Power battery. Using a 2x20V battery provides a considerably longer working time compared to the regular 20V version.
