**CAULKING GUN - POWDP7050**

The Dual Power cordless caulking gun is a new product within the Dual Power battery family, the platform with two batteries (of 20 V and 40 V) for all your power and gardening tools. As a result, you can keep working a whole lot longer without any cabling.

The powerful 20 V LI-ION battery allows you to caulk a straight line with millimetre precision. This result is also enabled by the high torque motor, the anti-drip function for the most clean finish and the adjustable speed of 0,8 - 8mm/s. Maximal pressure force amounts to 2000 N.

The metal cylinder frame makes the POWDP7050 a powerful and robust machine which is furthermore easy to hold thanks to the soft grip handle. Maximum capacity for this cordless caulking gun is a cartridge of 310 ml.
