POWDPG7576 CHAINSAW 40V LI 350mm (NO BATT.)

Great power and complete freedom of movement. This 40V cordless chainsaw from Dual Power can handle the toughest sawing jobs and is incredibly easy to use. The chainsaw features a brushless motor: A powerful, durable motor with nearly any maintenance, that maximises the run time and motor life. On top of that, the device increases the user's comfort by reducing the amount of vibrations drastically.

The chainsaw with 350mm blade and solid Premium chain is equipped with an automatic chain lubrication system and a quick toolless chain adjustment. Oil can be added very simply in the large 0,15l oil tank. The chainsaw is in other words an easy to operate tool, so you can focus on pruning the trees. For your safety, the machine's kickback is reduced to a minimum. The quick stop and auto brake hand guard take care of your safety too.

The 2x20V battery is not included. You buy it separately and it is compatible with the entire Dual Power range.
