## POWDPG8060 WEED SWEEPER 20V

With this cordless weed sweeper from Dual Power, dirty joints full of moss and weeds are a thing of the past. The tool's powerful 20V motor provides up to 1400 rotations per minute, cleaning all joints between patio tiles and paving stones in the blink of an eye. The battery-powered tool provides full freedom of movement, without getting entangled in extension cords.

Working ergonomically is possible thanks to the telescopic shaft, the soft grip and the auxiliary handle. The POWDPG8060 is easy to operate and safe and stable to use because of its support wheel and brush protector. A spare brush can be stored in the auxiliary handle, making it even easier to change it on the go.

Comes with one steel and one nylon disc brush. Attention: only suitable for use on scratch-resistant tiles and paving stones.

### Separate battery and charger

The battery and charger are not included. They are sold separately and are compatible with the whole Dual Power range.

### Which Dual Power batter is compatible?

This 20V weed sweeper is compatible with both the 20V and 2x20V Dual Power batteries. The use of a 2x20V battery ensures an even longer battery run time, compared to the use of a 20V version.
