POWERPLUS

HEAT GUN - POWE80042

The 2000W Powerplus heat gun guarantees optimal heat dissipation and is ideal for removing glue and paint.

The lock-on button and the device's light weight allow for comfortable use while the 1,8 m cable length provides the necessary freedom of movement.

Choose between 2 temperature settings, so you can optimize the temperature for specific uses. Use the lowest setting at 350°C to quickly dry damp wood or paint, remove stickers, thaw frozen pipes or use it to wax your skis. The higher setting of 600°C can be used to bend plastic pipes, loosen nuts and bolts, and to easily remove paint.

This heat gun comes with 3 nozzles:

- One spreader nozzle which spreads the heat,
- One glass protection nozzle,
- One reduction nozzle to concentrate the heat.

TECHNICAL SPECIFICATIONS POWE80042		Features	Box content	Symbols
Rated Voltage - Frequency	220-240V~ 50Hz	<ul style="list-style-type: none"> • 2 Heat settings • Soft grip 	1x heat gun
