This 18V impact wrench is perfect for fastening and loosening bolts and nuts in metal or wood. It is light and easy to use and its compact shape allows you to work without tiring.

It has a high tightening torque of 160Nm maximum, a variable speed from 0 to 2000min<sup>-1</sup> and an impact rate from 0 to 3000 strokes per minute. So you can always set the optimal speed for tightening in different materials.

The POWEB2015 is equipped with a led light that illuminates the work surface and allows you to work in darker places. It also has a quick stop for extra safety and a soft grip handle for more comfort.
