POWEG63705

LAWNMOWER 1300W

The POWEG63705 is the perfect entry-level model for every hobby gardener. Its powerful 1300W motor is ideally suited for lawns of up to 250m². The garden tool features a maximum cutting width of 320mm and three position height adjustment between 25 and 65mm. Additionally, the lawnmower can reach all corners, so no additional detail finishing is needed.

The cut grass is collected in the handy 30 litre grass collector, but the mower can also be used without the collector. Working without interruptions is possible thanks to the cable relief that prevents the extension cord from getting unplugged unintentionally.

Maintaining the lawnmower is a breeze, freeing up the time to focus on the essentials: the lawn care itself. An overload protection ensures the user's safety at all times.
