POWERPLUS

LAWNMOWER 145cc | 420mm GRASMAAIER TONDEUSE À GAZON RASENMÄHER / CORTACÉSPED

This Powerplus lawnmower is equipped with a fuel efficient 145cc engine with easy start function, so you can get to work straight away. With a cutting width of 420 mm, it's perfect for mowing mid-size lawns and what's more is you can use this lawnmower to also keep the edges of your grass looking immaculate.

Choose the optimal height for your grass with the 6 different cutting heights between 20 and 70 mm. The cut grass can then either be finely mulched and used to fertilize your lawn, discharged at the rear of the lawnmower, or it can be collected directly into the large reservoir and with a capacity of 40 litres, it will take a while before it's full.

For your comfort, this machine also features a soft grip handle to provide more control and grip, and thanks to the ball bearing wheels you can effortlessly manoeuvre this lawnmower around your garden.

In addition, there is the built-in garden hose connection point, which makes for easy cleaning. Connect the hose, open the water faucet, start the engine and the lawnmower will clean itself.

Lastly, this lawn mower also comes with a spark plug wrench for easy maintenance.
