METAL SAFETY GUARD

ANGLE GRINDER 2300W

This powerful 2300W angle grinder has a large Ø230mm disc for cutting off, grinding, sanding, deburring or rust removal. A spindle lock keeps the spindle from moving while installing the disc.

Thanks to the soft start the motor slowly reaches its full speed. This guarantees an optimal control and safety. The auxiliary handle with soft grip can be fixed in two different positions. This provides a superb control of the angle grinder. A safety guard lets the user work in all safety.

POWERPLUS

PRO POWER

Pro Power is especially designed to meet the demands of a professional. The superior quality tools deliver a high performance and can handle the most challenging tasks. With Pro Power you can be sure of extremely durable and reliable tools.
