## IMPACT SCREWDRIVER 20V LI-ION (NO BATTERY)

This powerful, cordless 20V impact driver from Pro Power offers a torque of up to 200Nm, as well as an impact function to fasten large screws. The impact function offers with its 3100 strokes per minute plenty of power to finish heavier screwing jobs.

The impact driver is equipped with an electronic speed control with 4 speed settings: 3 regular speed settings (slow, medium and high) and an auto torque control. The latter adjusts the speed and torque setting automatically to the resistance, to prevent the screw, nut or workpiece from getting damaged.

The overload protection provides the necessary safety. Additionally, a direction selector switch enables to tighten as well as loosen screws. The tool is especially designed with high-quality materials to cater to the needs of intensive users.

### Separate battery and charger

Batterie and charger are not included. You buy them separately and they are compatible with the entire PRO POWER battery platform.

### With which PRO POWER battery is it compatible?

Combine this 20V impact screwdriver with the 20V PRO POWER battery. This 20V battery exists in different variants. We offer you a battery with a capacity of 2.0Ah and one with 4.0Ah for an even longer running time.
