Pro Power is especially designed to meet the demands of a professional. The superior quality tools deliver a high performance and can handle the most challenging tasks. With Pro Power you can be sure of extremely durable and reliable tools.

## JIGSAW 20V LI-ION (NO BATTERY)

This 20V cordless jigsaw from Pro Power is ideal for precise cuts. It features a rotation speed of up to 2600min<sup>-1</sup> and 4 pendulum action settings. The pendulum action allows you to saw fast and accurately in harder materials with a maximum depth of up to 135mm in wood and 10mm in steel. Thanks to the brushless motor, the device is more powerful and durable, with less vibrations and a longer lifetime, while requiring little maintenance.

The Pro Power jigsaw has a strong aluminium base that allows for bevel cuts. It can be tilted 45° in both directions. The saw blades can be replaced easily with the toolless quick-change system. Connect the machine to a vacuum cleaner for a clear view of the cutting line at all times. One jigsaw wood blade is included.

### Separate battery and charger

Battery and charger are not included. They are sold separately and are compatible with the entire Pro Power collection.

### Which Pro Power battery is compatible?

This 20V jigsaw is compatible with all 20V Pro Power-batteries. They are available in three versions, with a capacity of 2.0Ah, 4.0Ah and one with 6.0Ah that provides you with an even longer battery run time.
