## LEAF BLOWER/VACUUM 26.6cc

Raking leaves together? We've got better things to do! This Powerplus leaf blower/vacuum does it faster, with more power and more fun. Whether you want to blow them together or to eliminate them completely: leaves and garden waste disappear in no time at all.

The tool comes with 2 different nozzles: attach the blower at the front and the vacuum at the side. Use it with the bag that collects the shredded leaves (ratio 10:1). You can quickly connect and disconnect the 55l large collect bag with shoulder strap.

The ignition starts the device easily with its automatic choke. The POWPG60140 features a classic Champion spark plug for a good combustion and a 0,4l fuel tank. You can thus carry on working for a while.

The Powerplus leaf blower and vacuum offers its operator maximum protection: the safety trigger stops the motor when the cover is opened. With the control handles you'll have the device firmly in 2 hands.

Spark plug wrench with screwdriver included.
