POWERPLUS
HIGH QUALITY TOOLS

POWX00405 SCREWDRIVER 3.6V LI-ION

The Powerplus POWX00405 is a cordless 3,6V screwdriver for smaller DIY-tasks. It comes with no less than 37 accessories: 1 magnetic bit holder of 60mm, 24x25mm bits, 7x50mm bits and 5 sockets. Everything is nicely stored in a BMC and you don't have to run to the shop every time.

This compact device enables working very practically in tight areas. By simply switching to the right or the left you choose between fastening and loosening. The quick release chuck and magnetic bit holder make it very easy to change bits.

Thanks to its rotatable handle with soft grip, you hold and turn the Powerplus screwdriver very comfortably. The LED worklight accompanies you in narrow poorly lit spaces. Finally, the overload protection avoids overheating. So you can keep on working safely.
