POWX00420 COMPACT SCREWDRIVER 4V

The Powerplus POWX00420 is a cordless 4V screwdriver for smaller DIY-tasks. Shaped like a manual screwdriver, it is comfortable to use and fits right in your pocket.

The versatile screwdriver is compact, yet very powerful with a battery capacity of 1300 mAh. So, heavy-duty work in tight areas is no problem at all and the 3 LED work lights serve you well in narrow, poorly lit spaces. Perfect when assembling Swedish flat-pack furniture, for example. By simply switching rotations to the right or left you can either tighten or loosen screws.

The 3 torque positions (max. 4 Nm) provide the necessary control, so you can always use the best torque for your project. The built-in bit holder speeds up the process of changing bits. You can charge the POWX00420 with the USB cable provided.

Not only does this compact screwdriver come in a practical storage case, it also includes 26 screw bits and a hex key, so you can get to work without delay.

TECHNICAL SPECIFICATIONS POWX00420		Features	Box content	Symbols
