DRILL/SCREWDRIVER 20V LI-ION

This 20V cordless drill/screwdriver from Powerplus is an all-rounder for most screw-driving jobs in and around the house and for light drilling work. The direction of rotation can be changed at the push of a button, which also allows to loosen screws.

The drill/screwdriver has two gears with a maximum rotation speed of 400 to 1400 rotations per minute. This allows the machine to achieve a maximum drilling capacity of Ø20mm in wood and Ø8mm in steel. The soft-start motor gradually builds up the speed ensuring that the machine can be safely controlled at all times.

The 10mm quick-release chuck ensures the necessary ease of use. The motor provides a maximum torque of 35Nm. With its 19 torque settings, the machine can be easily adapted to any screw-driving task. The work light provides enough light to do a good job even in poorly lit places.

The drill/screwdriver comes in a practical storage case with a total of 134 accessories. The machine includes 2 batteries and a quick charger. The batteries each have a capacity of 1300mAh. Also included are an extensive set of screwdriver bits and drills, practical hand tools such as a knife and a measuring tape, and a set of screws and plugs.
