POWX0478 WALL AND CEILING SANDER 1220W

Our POWX0478 is ideal for sanding walls, ceilings, plasterboards, wood, and preparing surfaces for painting. The sander is designed for larger areas that would be time consuming and difficult to sand using a traditional hand sander.

The soft start function will avoid swirl marks when you start sanding. This easy to use sander allows you to work on high surfaces because it's 4m cable. The sander features an adjusting wheel for speed control and suction power.

There is no need to use a vacuum cleaner! The large hose, the self suction function and the 6-hole extraction ports minimize the clean up afterwards and create a dust-free working environment.

8 sanding pads with different grains are included.

TECHNICAL SPECIFICATIONS POWX0478		Features	Box content	Symbols
Rated voltage - frequency	230-240V~ 50Hz	<ul style="list-style-type: none"> • Electronic speed control • Soft start • Hook & loop system • Adjustable suction power • Auxiliary handle (2 pos.) • Soft grip • Can be used with or without vacuum cleaner 	1x wall and ceiling sander
