POWX0479

DRYWALL SANDER 1050W

With this Powerplus drywall sander you sand drywalls, ceilings and walls in a comfortable and quick way. It also enables you clearing paint, adhesive and loose plaster. Thanks to its tube extendable up to 165cm and the 4m flexible pipe, there is no need to search for a ladder. You can keep on working comfortably on the floor.

The speed of the powerful 1050W machine is adjustable between 600 and 2600min⁻¹. For safety reasons, its soft start keeps the motor from running abruptly. The LED ring really make this sander complete: it shines exactly on the spot where you need extra visibility and enables you working very accurately.

The POWX0479 comes with 6 pieces sanding paper that can quickly be replaced thanks to the hook and loop system. The sander's disc diameter amounts to 215mm, what makes it suitable for a 225mm diameter sanding paper. The support foot protects the extraction hose when positioning the machine on the floor. For minimum dust you connect the device on a vacuum cleaner or on the dust bag. You take the drywall sander with you in the carrying bag or fold it for easy storage.

TECHNICAL SPECIFICATIONS POWX0479		Features	Box content	Symbols
Rated voltage-frequency	220-240V~ 50Hz	<ul style="list-style-type: none"> • Maximum reach with telescopic shaft • Hook & loop system • Support foot • Soft grip handle • LED ring • Dust extraction • Soft start 	1x drywall sander
