TELESCOPIC MITRE SAW 1600W

This telescopic dual bevel mitre saw from Powerplus features a 1600W motor with enough power to finish most sawing tasks. Its head can be tilted to the left, as well as to the right, allowing for all possible mitre and bevel cuts. A handy scale ensures that the cutting angle can be set very precisely.

The Ø210mm saw blade and telescopic head ensure a large cutting capacity of 305mm for regular cuts and 210mm for 45° bevel cuts.

With its built-in precision laser and vacuum cleaner connector, a good view of the cutting line is ensured at all times. The D-shaped softgrip handle provides the necessary user comfort.

Thanks to the double safety switch and the clamp that fixates the workpiece safely, the user's safety is guaranteed.

Additionally, the saw blade is enclosed by a protective cover, making it a very safe-to-use tool.
