POWX1021 HEAT GUN 2000W

This heat gun with soft grip emits hot air at a temperature of 380°C or 580°C (and at 50°C to reduce the cooling time after working). The lower temperature of 380°C is perfect for drying paint or wet timber, removing stickers, thawing frozen pipes or waxing. The higher temperature of 580°C is suited for bending plastic pipes, loosening nuts and bolts and removing paint.

A reduction nozzle (to concentrate the heat) and a spreader nozzle (to spread the heat) are included.

TECHNICAL SPECIFICATIONS POWX1021		Features	Box content	Symbols
Rated voltage	230V~ 50Hz	<ul style="list-style-type: none"> • Lightweight • T-handle 	1x heat gun
