HAMMER DRILL 1500W

Drilling, hammer drilling or chiselling is a piece of cake thanks to the robust 1500W POWX1197 hammer drill. Just change the settings using the switch and you're ready to take on several materials with very little effort. You can drill into wood, metal, ceramics and plastic, you can hammer drill into concrete, brick, and stone as well as do some light chiselling.

This sturdy hammer drill operates at up to 4000bpm with a maximum drilling capacity of Ø40mm in wood, Ø32mm in concrete and Ø13mm in steel. While harnessing all that power, the vibration reduction system ensures you can work comfortably without any bothersome vibrations.

Additionally, the POWX1197 is equipped with a dust cap to minimize dust and an extra, detachable handle with soft grip for even more control while you work. The depth stop guarantees a uniform depth for each screw.

To make sure you can get to work immediately, 4 drill bits of Ø6-8-10-12 x 150mm are included with this hammer drill. It also comes with a spanner, a flat chisel, a pointed chisel, a key chuck with SDS-type adaptor and a grease pot.
