HOT GLUE GUN

4V | 2200mAh

This cordless hot glue gun from Powerplus is the ideal tool for crafts, decorations and fixing tasks, like laying cables. The cordless tool promises unlimited freedom of movement. This hot glue gun is good to go in a flash, thanks to its extra short heating time of only 25 seconds.

The glue gun is compatible with Ø11mm glue sticks. The soft grip provides the necessary comfort during long tasks. The gun's no-drip system prevents glue from dripping out of the gun.

The built-in battery has a capacity of 2200mAh. A fully charged battery offers a run time of up to 50 minutes. That is plenty to get a variety of tasks done in and around the house. The battery can be charged with a USB cable.
