POWXB50020 JIGSAW 20V

This compact cordless 20V jigsaw is ideally suited for all sawing tasks in and around the house. It features a powerful and durable brushless motor that requires little maintenance. The motor produces up to 3000 strokes per minute. This jigsaw has a cutting capacity of 100mm in wood, 10mm in plastic and 6mm in steel.

The base can be tilted up to 45°, allowing you to make small bevel cuts. With the quick blade change system, the saw blade can be changed in the blink of an eye. The jigsaw also features a dust outlet connector, which enables you to maintain a clear view of the workpiece while working. The 4-stage pendulum action helps you to get through harder materials more easily.

The jigsaw comes in a convenient storage case, including a 2.0Ah battery, a charger, a side guide, a hex key, nine saw blades and a vacuum cleaner adapter.
