Cutting firewood or pruning thicker branches? This Powerplus chainsaw with a two-stroke 37.2cc engine offers you the necessary power and comfort for the chore. With a bar of no less than 400mm and a petrol motor you work very efficiently and without hindrance of cables.

In spite of this powerful motor, you are still able to hold the Powerplus machine very comfortably. Thanks to the vibration reduction system, the device has a very low vibration level.

Besides that, you also save time, because the easy start gets you sawing quickly and the quality chain and guide bar are lubricated automatically. This results in a device with a longer lifetime.

The auto brake hand guard guarantees the operator's and machine's safety. The engine shuts down in case of kickback.
