POWXG30030 is a useful and handy garden tool to trim lawn edges or borders. Places you cannot reach with your lawnmower can easily be finished with this 400W grass trimmer. Also helpful to cut longer grass. The adjustable trimming angle and edge roller make it useful as side edge cutter. The Powerplus trimmer has a flower protect guard to protect plants and shrubs whilst trimming. The large auxiliary soft grip handle is easily adjusted and the aluminium shaft extended from 110 to 130cm. All to improve the operator's comfort.

Furthermore there's no need to reload the cutting line while working thanks to the patented intelligent thread lengthening system. A time saving invention! The cutting line measures 5m (double thread) and has a diameter of 1.4mm. It is protected by a safety guard.

With the POWXG30030 you will enjoy a proper lawn finishing wire.
