POWXG30035 is a useful and handy garden tool to trim lawn edges or borders. Places you cannot reach with your lawnmower can easily be finished with this 600W grass trimmer. Also helpful to cut longer grass. The adjustable trimming angle and edge roller make it useful as side edge cutter. The Powerplus trimmer has a flower protect guard to protect plants and shrubs whilst trimming. The large auxiliary soft grip handle can easily be adjusted and the aluminium shaft extended from 120 to 150 cm. All to improve the operator's comfort.

Furthermore there's no need to reload the cutting line while working thanks to the patented intelligent thread lengthening system. A time saving invention! The cutting line measures 4m (double thread/straight) and has a 1.6 mm diameter. Apart from this spool it comes with 3 extra spools, one with a straight wire and two with twisted wire (4 m double thread), suitable for light or heavy weeds. It is protected by a safety guard. With the POWXG30035 you will enjoy a proper lawn finishing. It's warranted for 3 years.
