4-STROKE

POWXG50300

HEDGE TRIMMER 26.5cc

This 4-stroke petrol hedge trimmer is very different from a manual hedge shear. Your hedges are trimmed smoothly and powerfully. The cordless tool provides you the freedom you need to work in your garden. Thanks to its 4-stroke motor, the hedge trimmer has a much longer lifetime than a 2-stroke equivalent and is environmentally friendly, because no oil gets mixed with petrol.

The POWXG50300 works fast and powerfully as it has a 26,5cc cylinder capacity, a blade rotation speed of 8600min⁻¹ and a 480mm cutting length. With its double action laser cut blade you trim branches of less than 28mm in diameter.

Moreover, this Powerplus hedge trimmer considers its user. The noise level and the vibrations are lower thanks to the 4-stroke motor. Its handle is rotatable and you can adjust the head, so you don't have to adapt your own position. There is also a second handle for two handed operation. The safety guard protects your hands while working.

TECHNICAL SPECIFICATIONS POWXG50300		Features	Box content	Symbols
Engine stroke type	4 stroke	<ul style="list-style-type: none"> • Light & compact • Easy start engine • Automatic choke • Primer bulb • Adjustable head • Rotatable handle • Double action blade • Laser cut blade • Low fuel consumption 	1x hedge trimmer
