CORTACÉSPED

This self-propelled petrol lawnmower is powerful and flexible at the same time. It has a strong 173cc eco driver 4-stroke engine and a cutting width of 510mm, so even large lawns will be no problem. The solid steel housing can withstand repeated use and any weather condition.

The cutting height can be adjusted from 25 to 75mm, you decide which of the 7 positions you choose. During mowing you can either collect the cuttings into the large 65-liter grass collector, choose for rear or side discharge or for mulching.

You can also adjust the handle height for easy manoeuvring. After mowing you can fold the handle and store it more compactly, of course not without using the easy cleaning water nozzle first.
