POWXG72010

CULTIVATOR 1500W

This electric cultivator from Powerplus X gets the soil in your garden ready for planting. The 1500W garden tool is a perfect fit for smaller gardens. It is equipped with six knives and has a working width of 450mm, ideal for preparing your garden beds. The cultivator can be used to remove weeds or to mix fertiliser or compost into the soil. This way, your garden is ready for the season without you having to get your hands dirty. The soft grip and sturdy wheels enable you to work comfortably.

Clean the air vents after each use to prolong the lifetime of your cultivator. It is recommended to use the POWXG72010 with an extra-long extension cord (not included), so that you are able to reach even the farthest corners of your garden.
